**"International UFO
Congress: Part
One"**

I am a native person of Okla-Choctaw heritage, who has been entrusted and honored, in this Seventh Fire, to offer the teachings of an ancient Anishinabe (Ojibwa) Peace Shield of truth and instructions to the Human Family one last time. The ancient truths of this shield are older than many sources including the Dead Sea Scrolls. Gathering and increasing truth's power to restore and amplify peace upon Mother Earth is the ultimate purpose of the Peace Shield.

A bundle was opened in early 1996 in a special ceremony to begin the sacred mission of the Peace Shield. Contained within the bundle is a sacred prayer pipe and large elk hide upon which the Peace Shield is drawn. "The Seven Fire Prophecy" foretold of this time to the ancient people. Seven prophets spoke of a Fire or Spiritual chapter which described things which would happen to the people. The Seventh Prophet said that native ways would be honored and the Elders would again speak.

Also shared was, the light skinned race would be given a choice between two roads: destruction, or the lighting of the Eighth and final fire, an age of peace, love, joy and oneness.

In addition, the Seventh Fire foretold of the signals which would be given to Native People so they would know when to act for the good of "All Relations." The signals would include environmental concerns, risks to the destruction of humanity, high levels of technology, Earth Changes, and finally Freedom for Native people to participate in their beliefs.

The Peace Shield is a reminder to Native people that in the Seventh Fire it would be their responsibility to assist and help bring the Human Family back together again. "These original truths of the Peace Shield are to be given to the Human Race for the last time so that each person can have what they need to decide the future of our Mother Earth." The Peace Shield teaches the value, beauty, wisdom and wonder of walking into the future with great faith and absolutely no fear. In the past the Peace Shield provided community and personal stability, it now charters for human kind a journey into the blessed future.

The Peace Shield brings this challenge to all Earth Walkers - become more aware of and develop respect for all religions and ways of reaching toward the Creator. The peace Shield has a specific circle that honors and holds the energy of those prophets, messengers and spiritual leaders who are the reflections or rays of light that emit the truths and glow of the Great Source/Creator. Unique to the Peace Shield is the bringing of a "sharing table" into the Lodge of the Creator. At this table, the Human Family can become aware of our neighbors that share this earthly planet. As each person, group and community of believers talks with each other, the outcome promised in many prophecies comes nearer.

I believe that spirituality lives first in one's personal expression of truth, second, in the choice to find companionship with others and third in the courage and self-discipline to walk one's talk in the next "fire" or dimension of existence. One reminder is presented here for all to consider. Sacred scrolls and documents will be brought out of their concealment when the people return to spiritual ways, "By Faith Alone." We must take time to reflect upon our native warriors and aborigines who exhibited no fear in purer cultural times.

A significant blessing, and gift, of the Peace Shield is its energy to balance oneself and groups. The task of spiritual beings in the Seventh Fire is the balancing or the strengthening of two aspects of our personal outlook on life. Having achieved this balancing of two truths, there develops within our spiritual being a totally new aspect within us. This new aspect, a third dimension of self, can assist and literally propel us into or towards a new reality of life, or step into the future.

Many of us are standing at some sort of "Y" in the road. I believe the Peace Shield within us and the Peace Shield(s) by ancient ones can shed light upon our journey back to the side of the Creator and Community. The future will be created by each one of us. Let us all anticipate and prepare, even celebrate our Journey toward new realities of life.

Fundamentals: Flying Saucers and UFOs

(Privileged we are to hear Rainbow Eagle fresh back from the International UFO Congress in Phoenix
(<http://ufocongress.com/ufo-conference/2011-speakers/>)

1) Many, if not most, discussions of Flying Saucers labor whether this subject matter even exists! The Mutual UFO Network is especially culpable in this regard. At a recent regional MUFON meeting in Columbus Ohio on July 22, 2009, MUFON State Director, retired attorney William Jones, droned on and on for about an hour about "The Hilliard UFO Case" from way back in 1967. Revised conclusion: "Probable Hoax". This illustrates that even dedicated UFO organizations have sincere difficulty coming to grips emotionally with the import of the reality of the UFO phenomena that has overtaken our home planet. (Or was it to throw a wet blanket over local UFO interest?)

- Fortunately us folks at Wisdom Quest can update our thinking and not evade the essential: Flying Saucers are here and definitely they are queer... Very Queer. This means in our discussion about this new phenomena we will not focus on airplanes or weather balloons or the planet Venus or temperature inversions or satellites or even "Swamp Gas". In our discussions, we will stay focused on Flying Saucers! Above all: We are not going to "prove" anything about Flying Saucers. Proof depends upon authority; authority comes from political power and political power comes from the barrel of a gun...
- Easier said than done... Difficult to stay on message without the distractions of stupid "Red Herrings" such as "The Illuminati" or "Prescott Bush" or "Mary Magdalene" or "Jesus" or "The Bible" or "Knights Templar" or "Nazi Saucers" or "Aurora Stealth Spy Plane" or "Chemtrails" or "Alternate Timelines" or "Parallel Universe" or any number of other subjects that may have merit unto themselves; but which lead us away from our subject matter: FLYING SAUCERS!
- **Why?** Why the difficulty in staying focused upon this one subject?
- **Answer:** Because Flying Saucers induce much anxiety, excitement and fear. This is an emotional question, not a cognitive one. We humans become uneasy when dealing with this subject (just like we become uneasy dealing with Sex). We tend to change the subject; we tend to run away; we tend to "Evade the Essential". Dr Wilhelm Reich, MD, first described this observation in his book, *The Function of the Orgasm*, published in 1942. Trust me on this: Flying Saucers induce much emotion; therefore: our task in learning and understanding will be more emotional than intellectual...

2) "The hardest thing to see is what is in front of your eyes" Goethe. "Where ignorance prevails, theories abound" Russian Proverb. "Observations are more important than theories" Klark Kent.

- In Ufology, there manifests a compulsion to "explain" details of sightings. Should a Flying Saucer change color from silver to red upon acceleration, then "engineer types" can get pretty hot and bothered trying to explain "Gravitational Redshift" in context of "Spectrum Analysis", "Relativity", and even "Quantum Mechanics". If explanations are not easily forthcoming, then the veracity of the UFO observation will be challenged as impossible. End Result? ANGER in dismissing the accuracy and truthfulness of the UFO report.
- Not necessary to "explain" a Flying Saucer sighting. Not necessary to explain anything at all... But, the Scientific Method requires we record and write down what we see and hear and sense about the incident. And that is all. No need to "explain" the sighting; no need to "project" our meaning upon these new series of events for which we have little historical or scientific precedent. By faithfully recording the observations (observations made from Nature); we must gradually and inexorably paint a picture of scientific truth. That's all there is to it. No amount of B.S. piled higher and deeper will substitute for this simple scientific method.
- Academia has much invested in the status quo. This means those experts with credentials suddenly find their diplomas and qualifications meaningless when confronted by UFOs.
- Beware of too much theory: Especially Einstein. The old order crumbles. The new not yet written... Events now overtake us. The authority of Einstein comes from the Atom Bomb and the military prowess engendered by our victory in World War Two. Now the authority of the military deteriorates in the face of seeming alien superiority. Response: Deny the phenomena exists...

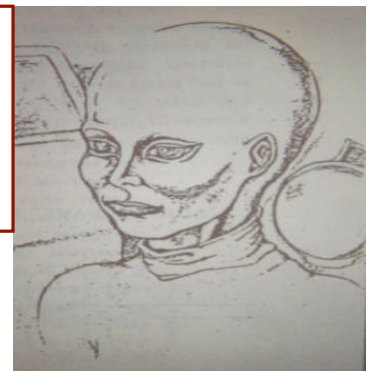

3) *Our Religion and Mythology woefully inadequate to deal with the UFO Phenomena.*

- What does religion have to do with Flying Saucers? Answer: "EVERYTHING"
Why? Because Christianity is a "Monopoly" religion. Thus: only God, Jesus and Mary are allowed (plus Satan). Any other hint of Divinity strictly illegal... Judaism the same way; plus Mohammedism: all three are Monotheistic, this means all three are Monopolies and do not allow any sort of Mythological history or interpretation other than their own.
- Now others have come. Some look like us and some don't. Our religion and mythology caught absolutely flatfooted and "pants down" by the appearance of others into the environs of Earth.
- So far the reaction of Christianity to 60 years of Flying Saucers is to ignore and deny. Christianity offers no context or precedent to frame the UFO Phenomena. Not surprising since Christianity started as a Roman slave cult from embittered Judeans after the final destructions of Jerusalem in 70 AD and again by Hadrian in 136 AD after the failed Simon Bar Kokhba revolt. (Christianity: A Direct and Plagiarized copy of "Mithraism") Here's the link: <http://www.truthbeknown.com/mithra.htm>
- Historical analogy: The Iroquois and the Hurons were dominant in North America until the voyages of Frenchman Jacques Cartier in 1534-1542. Suddenly what the Indians thought and believed really did not matter... By 1643, the Iroquois Confederation had forgotten the teachings of Hiawatha and the Great Peacemaker (Hiawatha Link: <http://en.wikipedia.org/wiki/Hiawatha>); and had acquired about 400 firearm trade guns from the Dutch. With that advantage, the Huron were scattered by their old rivals. Today, we are in an eerily similar position as the Indians in 1542.
- Implications: Our religion no longer counts for anything; just like the Iroquois religion suddenly did not matter when the Jesuits arrived. In order to get trade guns from the French, the Jesuits insisted that all Indians submit to Baptism first. Didn't really matter though; in 1791, President George Washington sent General Sullivan with orders to wipe out the entire Iroquois Confederation, which he effectively did.
- Even that decision by President George Washington was not decisive; Smallpox got there first and combined with Alcohol, the fate was sealed. Today, America enjoys the pre-eminent position the Iroquois had when the French arrived. The Iroquois had no precedent to guide them in their dealings with Europeans. We get no help from our religions or from our Christian mythology to frame or put into reference what is now happening.
